

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

**Bid Opening: WESTWOOD TOWN HALL  
SELECTMEN'S OFFICE MEETING ROOM  
580 HIGH STREET  
WESTWOOD, MA 02090**

**Date: October 13, 2011**

**Time: 10:00 a.m.**

The Town of Westwood, Massachusetts, is accepting bids for Crack Sealing in accordance with specifications and otherwise as noted below.

**TO: THE TOWN OF WESTWOOD  
Purchasing Department  
580 HIGH STREET  
WESTWOOD, MA 02090**

We, the undersigned herewith submit proposal for Crack Sealing, to the Public Works Department, Town of Westwood as listed per specifications at the following cost:

## **SCOPE OF WORK**

The work covered by these specifications consists of furnishing all plant, labor, equipment, and material necessary to perform all operations in connection with the cleaning, and sealing of construction and random cracks in bituminous pavement, and vegetation removal and sterilization of cracks where necessary.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

## **PROPOSED CONTRACT TERMS**

This contract shall commence upon signature of the contractor and end June 30, 2012, with the option to renew the contract for up to two consecutive terms of one (1) year each at the sole option of the Town of Westwood. The maximum term of this contract will result in an ending date of June 30, 2014.

## **MATERIAL**

Crack sealant shall be a modified asphalt-fiber compound designed especially for improving strength and performance of the parent asphalt sealant.

(a) The asphalt binder shall consist of a blend of neat asphalt binder and chemically modified crumb rubber (CMCR) that meets the following specifications:

- PG 64-28 or PG 70-28 after modification
- Viscosity of not more than 3PaS at 300 degrees F
- Modification at a minimum shall consist of 5% CMCR and the maximum particle size for the CMCR shall be 80 mesh (#80 sieve)
- The performance grade of the neat asphalt binder shall not exceed a PG 58-XX
- The asphalt supplier shall provide testing for the neat asphalt binder and modified asphalt binder in accordance with AASHTO M320

(b) Fiber reinforcing materials shall be short-length polyester fibers having the following properties:

Length*	0.25in. + 0.02
Elongation at Break; ASTM D2256-90	38%
Melting Point; ASTM D3418-82 degrees C)	> 475 degrees F (246
Crimps/Inc; ASTM D3937-90	None
Cross Section	Round
Denier; ASTM D1577-90	4.5 Nominal dpf
Tensile Strength; ASTM D2256-90	> 70,000 psi
Diameter	0.0085 in. **
Specific Gravity; ASTM D792-91	1.32 to 1.40

\* At temperatures ranging from ambient to maximum finished product mix temperature

\*\* Subject to Normal Variations

Modified asphalt-fiber compound shall be mixed at a rate of 8% fiber weight to weight of asphalt cement. This compound having the same chemical base provides compatibility and exhibits excellent bond strengths. The fiber functions to re-distribute high stress and strain concentrations that are imposed on the sealant by thermal sources, traffic loading, etc.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

## **EQUIPMENT**

Equipment used in the performance of this work shall be subject to the approval of the engineer and maintained in a satisfactory working condition.

**Air Compressor:** Air compressors shall be portable and capable of furnishing no less than 100 cubic feet of air per minute at not less than 90 lbs. per square inch pressure at the nozzle. The compressor shall be equipped with traps that will maintain the compressed air free of oil and water.

**Hot-Air Lance:** Hot-air lances for blowing clean and drying cracks shall be approved propane gas burner and compressed air device that does not allow the flame to touch the pavement.

**Pavement Cutter:** Equipment for reshaping cracks shall be vertical spindle or rotary type cutter.

**Melting Kettle:** The unit used to melt or maintain crack sealant compound at the recommended application temperature shall be the indirect fire type. It shall be equipped with a remote heat exchanger and hot oil circulation pump capable of maintaining a consistent temperature of the heat transfer oil. The heat transfer oil shall be circulated to all sides and the bottom of the vat containing the crack sealant compound making a continuous loop back to the heat exchanger and having a flash point of not less than 600 degrees F. The melter shall be equipped with a satisfactory means of agitating the crack sealant at all times. This may be accomplished by continuous stirring with mechanically operated paddles and/or by a circulating gear pump attached to the melter. The melter must be equipped with a thermostatic control calibrated between 200 degrees F. and 550 degrees F. and must be capable of pumping an 8% fiber content blend.

**Application Wand:** The application wand shall be attached to the kettle with a heat resistant hose equipped with a shut-off valve capable of completely stopping the flow of material between cracks. The material shall not be allowed to sit idle in the wand for a period greater than thirty (30) seconds. Should the delay be greater than thirty (30) seconds, the material in the wand shall be re-circulated into the kettle to ensure proper temperature of the sealant at the time of application. The application wand shall be equipped with a shoe, which will allow material to fill the cracks from the bottom up, and to leave and overband on the surface. The overband shall be kept to a minimum wherever possible.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

## **PREPARATION**

Debris and Vegetation Removal: All cracks shall be blown clean and sterilized by use of a propane air torch generating 2,000 degrees F and 3,000 foot/second velocity to eliminate all vegetation, dirt, moisture and seeds. All debris removed from the cracks shall be removed from the pavement surface immediately by means of a power sweeper hand or air broom.

No crack sealant material shall be applied in wet cracks or where frost, snow or ice is present nor when ambient temperature is below 25 degrees F.

## **ALTERNATE CRACK PREPARATION**

The random, transverse, and longitudinal joints and cracks 1/8" and wider shall be widened to a minimum of 1/2" by use of a pavement cutter. All cracks are to be cleaned of all dirt, moisture, foreign material and loose debris by use of a hot air lance. Two pavement cutters (routers) shall be on site during the sealing process in case of mechanical failure. Sealant shall not be applied over a previously sealed crack unless the prior sealant is failed and the crack is properly cleaned and prepared first. To be used at the discretion of the Director of Public Works.

## **PREPARATION AND PLACEMENT OF SEALANT**

The asphalt-fiber compound shall be thoroughly mixed for a minimum of one hour before application can begin. Whenever material is added to the tank, sealing operations shall be suspended for 1 hour to allow for the minimum required mixing time. Minimum application temperature shall be 320 degrees F.

Sealant shall be delivered to the pavement cracks through a high pressure hose line and applicator shoe. Diameter of the applicator shoe is not to exceed 3.5 inches. Once the pavement cracks are sealed the width of the sealant on the pavement (overbanding) shall be no greater than 3 inches. When traffic requires immediate use of the roadway, a boiler slag aggregate shall be broadcast over the cracks to prevent sealant from being picked up.

No crack seal shall be placed on any roadway casting frame, grate or cover. The contractor will clean the casting as needed to ensure that all casting grates and/or cover can be removed for normal access.

## **TRAFFIC CONTROL**

The traffic control shall be in strict adherence to the Manual of Uniform Traffic Control Devices (MUTCD) to ensure the safety of the crew and traveling public. The setup shall include but not be limited to road signs, safety vests, and police details where necessary and traffic cones.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

The Town of Westwood will pay the Police Department directly for any police detail as it is invoiced by the Westwood Police to the Department of Public Works.

The contractor shall be responsible to order and cancel any police detail. The Town would look to the Contractor to cancel the detail at a minimum of one (1) hour prior to the start time of the detail.

## **WORKMANSHIP**

All workmanship shall be of the highest quality, and excess or spilled sealer shall be removed from the pavement by approved methods and discarded. Any workmanship determined to be below the high standards of the particular craft involved will not be accepted, and will be corrected and/or replaced as required by the Town of Westwood.

## **MEASUREMENT AND PAYMENT**

Crack sealing in asphalt pavement will be measured by the square yardage of each section of road crack sealed. Payment for work completed shall be at the contract unit price bid per square yard within the limits of works. Payment shall also include full compensation for all tools, machines and labor, and all other work necessary to complete the work in a satisfactory manner.

## **GUARANTEE**

Any material or workmanship found to be defective for up to two (2) years from the date of acceptance by the Director of Public Works or designated agent shall be replaced by the Contractor at no cost to the Town. Upon notification of defective material or workmanship, the Contractor shall immediately replace such defective areas. The term designated agent shall mean an employee of the Town designated by the Director of Public Works.

No crack seal shall be placed on any roadway casting frame, grate or cover. The contractor will clean the casting as needed to ensure that all casting grates and/or cover can be removed for normal access.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

**Bid price to be held until June 30, 2012**  
**with 2 one year renewal options.**

Bid response must be based on all labor and materials per attached specifications. Bid will be awarded based on FY12 bid price. Alternate preparation is an optional add on.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

**Workman's Compensation:** - The Contractor shall, before commencing performances of this contract, provide, by insurance, for the payment of compensation in the furnishing of other benefits under General Laws, Ch. 152 to all persons to be employed under the Contract and shall continue such insurance in full force and effect for the term of the Contract, all in accordance with Massachusetts General Laws, chapter 149, S34A.

**Bodily Injury Liability Including Death:** - The Contractor shall take and maintain during the life of the Contract insurance coverage in the amount of one million dollars on account of any one person and one million dollars on account of any one accident and one million dollars aggregate limit. Extra territorial and guest clause shall be included.

**Property Damage Liability:** - The Contractor shall take out and maintain during the life of the Contract property damage liability insurance in the amount of one million dollars in the aggregate.

**Motor Vehicles Including Hired Vehicles:** - The Contractor shall take out and maintain during the life of the Contract motor vehicle insurance for bodily injury liability including death in the amount of one million dollars on account of any one person and one million dollars on account of any one accident. Additionally, property damage liability in the amount of one million dollars on account of any one accident and one million dollars aggregate. The contractor covenants and agrees to hold the town and its employees, agents and officials, harmless from loss or damage for personal injury and/or property damage arising from or in connection with operations under this Contract.

**Indemnification Clause:** - The Contractor acknowledges and agrees that he is responsible, as an Independent Contractor, for all operations under this Contract and for all acts of his employees and agents hereunder, and agrees that he will indemnify and hold harmless the Town and its officers, Boards and its employees, from any loss, damage, cost, charge, expense or claim which may be made against it or them or to which it or they may be subject by reason of an alleged act, action, neglect, omission or default on the part of the Contractor or any of his agents, servant, or employees and will pay promptly on demand all costs and expenses of the investigation and defense thereof, including attorney's fees and expenses. And, if any claim is made, the Town may retain out of any payments, then, or thereafter due to the Contractor, a sufficient amount to protect it completely against such claim, costs and expenses. The public liability and property damage insurance and owners contingent policies, as the case may be, shall include the above stated Indemnification Clause.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

## **Specifications:**

- The Contractor shall do the work set forth in the attached Cost Proposal in connection with the supplying of crack sealing for the Town of Westwood Department of Public Works.
- There are no guarantees of the total amount of work available or funds for any given year. It will be the responsibility of the contractor to make himself/herself familiar with the program and funding capability of the Town for each year. The quantities listed on the bid forms are estimates only. One or several work orders may be issued in any given year. Actual quantities shall be determined by the Director of Public Works or designated agent, in the best interest of the Town.
- After award of said Contract and after a "Request for Service" has been issued by the Director of Public Works or designated agent, the Contractor is obligated to provide service within twenty (20) calendar days of said request. The "Request for Service" may be sent either by fax, letter or email. The contractor shall response back to the Department of Public Works within two (2) business days by an employee in authority who can speak on behalf of the company. Failure to meet these obligations may subject the contractor to penalties of \$500 per business day of non-compliance. Failure to meet these obligations may subject the contractor to loss of Contract and the contractor may be assessed the difference in unit cost between their bid price and the next lowest responsive bidder.
- The Contractor shall compensate the Town of Westwood for all damages to the town property of any nature arising out of the Contractor's work; and the Contractor shall indemnify, defend and hold harmless the Town of Westwood and all of its Boards, Commissions, Officers, Agents and Employees against all suits, claims or liability of every name and nature and all claims for things which the Contractor is required to furnish under this contract and for or on account of any injuries to persons or damage to property and or nuisances or trespasses, and specifically, including death and consequential damages, arising out of or in consequence of the acts of or omissions of the Contractor in the performance of the work covered by the contract or failure to comply with the terms and conditions of the contract, whether by the Contractor or his agents, employees and subcontractors.
- The method of measurement is that the product will be paid by square yardage of each road section crack sealant is applied.

# **CRACK SEALING FOR BITUMINOUS PAVEMENT**

- ❑ Taxes: Purchases by the Town of Westwood are exempt from the payment of Massachusetts Sales Taxes, and such taxes must not be included in bid prices.
- ❑ The Department of Public Works specifically reserves to itself the right to accept any bid, or to reject any or all bids. Unless sooner rejected or accepted, all bids shall be firm and continue in effect for the period of two (2) months from date of opening. The bid prices shall be expressed on the attached bid proposal form. As part of this contract, attached hereto, are a Certificate of Non-Collusive Bidding and Certification of Payment of Taxes that must be signed. Failure to do so by duly authorize parties will automatically disqualify said bid, making its submission null and void.
- ❑ Bid must be filled out on the form prescribed and enclosed in a sealed envelope which shall be marked on the outside with the word "BID: Crack Sealing" and the name and address of the bidder.
- ❑ The bid price(s) must be type written in or written in ink in the space(s) provided on the official bid form. In the event of a discrepancy between the unit price and the extension, the unit price will govern. Bid prices shall encompass everything necessary for furnishing item(s) and or services specified in, and in accordance with the specifications.
- ❑ If the vendor fails to supply and/or deliver in time to meet the requirements of the Town, the Town reserves the right to obtain these services from another source. Any additional costs incurred by the Town as a result of a price differential between the price paid on the open market and the contract price will be charged against the contractor or deducted from any balance owed to the contractor.

The contractor must submit the following with his bid proposal:

- A list of six (6) jobs which he has successfully completed, giving the name and the address of these projects so they can be investigated prior to the award of the contract.
- The trade name of the Crack Sealant the bidder intends to use.
- The manufacturer of the Crack Sealant the bidder intends to use.

The Owner will require the contractor to successfully perform a 200 foot test strip in the field prior to commencing work under the contract.

## **CRACK SEALING FOR BITUMINOUS PAVEMENT**

Manufacturer's certificate of material compliance will be furnished to the Owner certifying conformance to the above material specifications.

- All bids must be firm and continue in effect for a period of two (2) months from date of bid opening. Any such bid that is accepted by the Department must continue in effect for a period of twelve (12) months after award of contract with two one year options.

	12/01/2012	\$63.110	06/01/2013	\$63.890	12/01/2013	\$64.670
WATER METER INSTALLER	03/01/2011	\$67.500	09/01/2011	\$68.250	03/01/2012	\$69.050
	09/01/2012	\$70.300	03/01/2013	\$71.550		

**Additional Apprentice Information:**

Minimum wage rates for apprentices employed on public works projects are listed above as a percentage of the pre-determined hourly wage rate established by the Commissioner under the provisions of the M.G.L. c. 149, ss. 26-27D. Apprentice ratios are established by the Division of Apprenticeship Training pursuant to M.G.L. c. 23, ss. 11E-11L.

All apprentices must be registered with the Division of Apprenticeship Training in accordance with M.G.L. c. 23, ss. 11E-11L.

All steps are six months (1000 hours) unless otherwise specified.

- \* Ratios are expressed in allowable number of apprentices to journeymen or fraction thereof.
- \*\* Multiple ratios are listed in the comment field.
- \*\*\* APP to JM; 1:1, 2:2, 2:3, 3:4, 4:4, 4:5, 4:6, 5:7, 6:7, 6:8, 6:9, 7:10, 8:10, 8:11, 8:12, 9:13, 10:13, 10:14, etc.
- \*\*\*\* APP to JM; 1:1, 1:2, 2:3, 2:4, 3:5, 4:6, 4:7, 5:8, 6:9, 6:10, 7:11, 8:12, 8:13, 9:14, 10:15, 10:16, etc.

**This wage schedule must be posted at the work site in accordance with M.G.L. ch. 149, sec. 27**  
**Failure of the employer to pay "prevailing wage rates," which are the minimum wage rates listed above, on public works projects is a violation of M.G.L. ch. 149, sec. 27. Employees not receiving such rates should report the violation to the Office of Fair Labor and Business Practices, 100 Cambridge Street, Boston, MA 02108; Tel: 617-727-3465.**

### Notice to Awarding Authorities

#### The Massachusetts Prevailing Wage Law

M.G.L. c. 149, §§26-27

#### NOTICE TO AWARDING AUTHORITIES

- The enclosed wage schedule applies only to the specific project listed at the top of the schedule, and these rates will remain in effect for the duration of the project, except in the case of multi-year projects. For projects lasting longer than one year, awarding authorities must request updated rates.
- You should request an updated wage schedule from the Department of Labor Standards if you have not opened bids or selected a contractor within 90 days of the date of issuance of the enclosed wage schedule.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project for which it has been issued.
- Once a contractor has been selected by the awarding authority, the wage schedule shall be made a part of the contract for that project.

#### NOTICE TO CONTRACTORS

- The enclosed wage schedule must be posted in a conspicuous place at the work site during the life of the project.
- The wages listed on the enclosed wage schedule must be paid to employees on public works projects regardless of whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- The enclosed wage schedule applies to all phases of the project, including the final clean-up. Contractors whose only role is to perform final clean-up must pay their employees according to this wage schedule.
- All apprentices must be registered with the Massachusetts Division of Apprenticeship Training (DAT) in order to be paid at the lower apprentice rates. All apprentices must keep his/her apprentice identification card on his/her person during all work hours. If a worker is not registered with DAT, they must be paid the "total rate" listed on the wage schedule regardless of experience or skill level. For further information, please call 617-626-5409, or write to:  
DAT, 19 Staniford Street, 1<sup>st</sup> Floor, P.O. Box 146759, Boston, MA 02114.

**WEEKLY PAYROLL RECORDS REPORT  
& STATEMENT OF COMPLIANCE**

In accordance with Massachusetts General Law c. 149, §27B, a true and accurate record must be kept of all persons employed on the public works project for which the enclosed rates have been provided. A Payroll Form has been printed on the reverse of this page and includes all the information required to be kept by law. Every contractor or subcontractor is required to keep these records and preserve them for a period of three years from the date of completion of the contract.

In addition, every contractor and subcontractor is required to submit a copy of their weekly payroll records to the awarding authority. For every week in which an apprentice is employed, a photocopy of the apprentice's identification card must be attached to the payroll report. Once collected, the awarding authority is also required to preserve those records for three years.

In addition, each such contractor, subcontractor, or public body shall furnish to the awarding authority directly, within fifteen days after completion of its portion of the work a statement, executed by the contractor, subcontractor or public body who supervises the payment of wages, in the following form:

<b>STATEMENT OF COMPLIANCE</b>	
_____, 20____	
I, _____,	_____
(Name of signatory party)	(Title)
do hereby state:	
That I pay or supervise the payment of the persons employed by	
_____	_____
(Contractor, subcontractor or public body)	(Building or project)
and that all mechanics and apprentices, teamsters, chauffeurs and laborers employed on said project have been paid in accordance with wages determined under the provisions of sections twenty-six and twenty-seven of chapter one hundred and forty nine of the General Laws.	
Signature _____	
Title _____

### Notice to Drivers of BITUMINOUS CONCRETE

NOTICE: TO AWARDING AUTHORITIES AND CONTRACTORS

ISSUED: SEPTEMBER 1, 2006

#### DRIVERS WHO HAUL BITUMINOUS CONCRETE (ASPHALT)

The Massachusetts Supreme Judicial Court recently affirmed that drivers who haul bituminous concrete to public construction projects are not covered by the Prevailing Wage Law while off-site, including time spent over-the-road and picking-up materials. These drivers are covered by the Prevailing Wage Law only while on-site at the public construction project. In *Teamsters Joint Council No. 10 v. Department of Labor, et al.*, 447 Mass. 100 (2006), the SJC upheld a 2001 administrative decision limiting the applicability of prevailing wage rates to the time bituminous drivers spend at the public construction site. This most recent decision of the SJC followed a 1989 ruling that had upheld an earlier Department of Labor (and Industries') policy that had deemed this category of drivers to be "teamsters" under the Law and, therefore, entitled to prevailing wage rates. See *Construction Industries of Massachusetts v. Commissioner of Labor and Industries*, 406 Mass. 162 (1989). However, the earlier court case had left open the question of whether this entitled these bituminous drivers to prevailing wage rates for their over-the-road time as well as their on-site time. This most recent decision has now answered that question.

All of the requirements of the Prevailing Wage Law, including certified weekly payroll requirements, apply to bituminous drivers for all time spent at the public construction site.

#### DRIVERS WHO HAUL READY-MIX CONCRETE (CEMENT)

Drivers who haul ready-mix concrete to public construction projects are not covered by the Prevailing Wage Law while off-site, including time spent over-the-road and picking-up materials. These drivers are covered by the Prevailing Wage Law while on-site at the public construction project. This applicability determination was established by a 2001 administrative decision of the Department of Labor's Division of Occupational Safety.

All of the requirements of the Prevailing Wage Law, including certified weekly payroll requirements, apply to ready-mix drivers for all time spent at the public construction site.

Please feel free to contact the Division of Occupational Safety at 617-626-6953 if you have any questions. Questions about enforcement of the Prevailing Wage Law may be directed to the Attorney General's Fair Labor and Business Practices Division at 617-727-3465
